

**Better policing**

**More homes**

**Promote diversity**

**Greener London**

**William Hougbo**

**Your First Choice For  
London Assembly**

**#LibDems**

**I am standing for London Assembly for the following major reasons.**

1. To ensure that the GLA reduces the widening gap between our diverse communities and responds to the specific needs of each social group.
2. To monitor how the Metropolitan Police and MOPAC ensures better public safety for Londoners and continues to efficiently tackle youth violence across the capital.
3. To ensure that the Mayor's office budgets create more housing for Londoners.
4. To ensure the GLA improves a cleaner and sustainable environment for all Londoners.

# 1) Better policing to keep London safe

To scrutinise MOPAC if it provides a better public safety for Londoners and continue to efficiently tackle youth violence across the capital.

Crime has risen very sharply in London, particularly gun & knife crime, moped crime, burglary and muggings. I will work with the police to address youth violence.

# 2) Promote London diversity and unite Londoners

## AT FINSBURY PARK MOSQUE

To preserve London's rich multicultural and diversity is unique. We all need to be proud of our fair, tolerant and inclusive City in which over 300 languages are spoken. London currently has a population of 8,799,720 and approximately 37% of that population were born

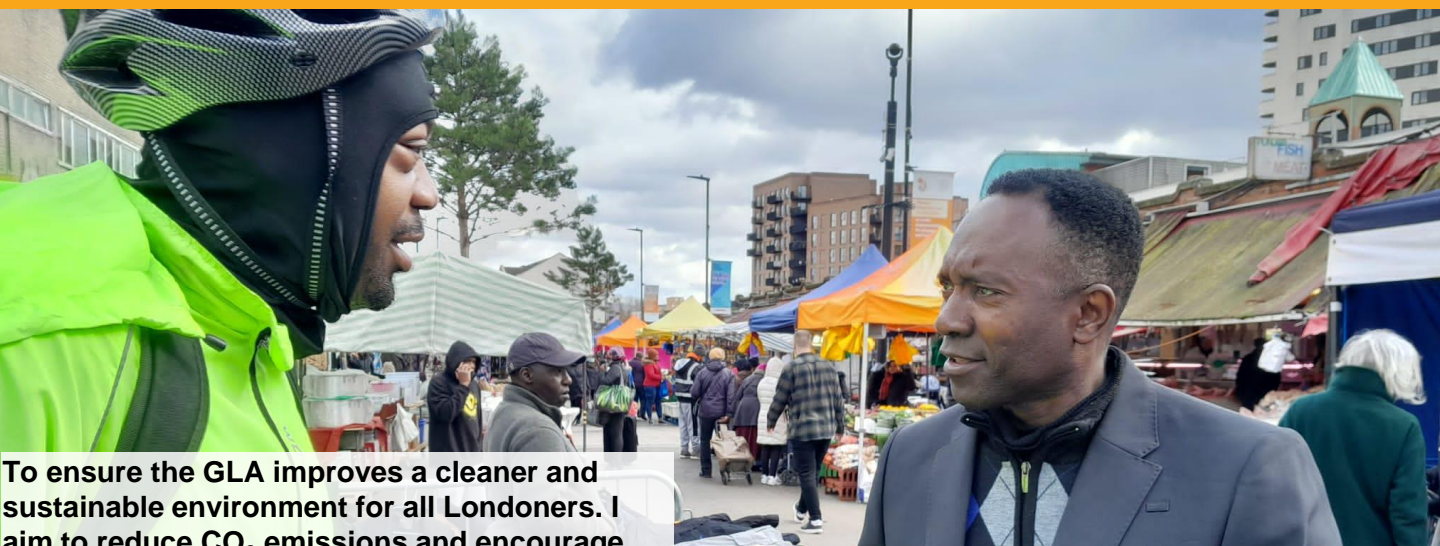

outside the UK. Large groups of Diaspora from many nations around the world live in London, millions of EU citizens also make up a large proportion living within the capital city. London also looks like a "Mosaic society" in which diverse social groups live together.

# 3) Create more homes for Londoners

The mayor's office has failed to build the homes we need. At present, a generation of Londoners cannot afford their rent and many are forced to live in overcrowded or unsuitable conditions of damp and mould. A high number of children have become asthmatic due to damp and mould that they breathe at night. I am standing to avert and reverse this situation.

# 4) Make London Greener

To ensure the GLA improves a cleaner and sustainable environment for all Londoners. I aim to reduce CO<sub>2</sub> emissions and encourage
